

Expert Talk on

Microwave & Millimeter Wave Technology for Fusion Plasma R & D

Dr. Hitesh B. Pandya
Scientist, ITER-India
Institute of Plasma Research
(I.P.R.)
Ahmedabad.

Highlights:

- The Expert talk is on designing of Microwave & Millimeter Wave components for Plasma research to carry out nuclear fusion i.e. future energy source.
- Cover the topics on Plasma, Microwave and Millimeter wave Bench Component for plasma research.

Date: 17th September, 2016 (Saturday)

Time: 11:00 AM to 01:00 PM

Venue: MA 308

Expert Talk Outcomes:

Enhance the knowledge of Microwave Course to the “Millimeter wave component designing and its Application” for the *Research and Development*.

Targeted Audience:

- Final year Undergraduate & Postgraduate Students of Electronics and Communication Engineering.

Event Coordinators:

Organized By :

Prof. Hitesh R. Ghadiya

Department of Electronics & Communication Engineering

Prof. Sunil P. Lavadiya

in association with Institution of Engineering & Technology (IET)
